about

Architect and passionate about design in all its shapes,
my **adventurous personality** has led me to participate in many different projects in Spain and China.

For me, **change** represents opportunity and challenge, it is always motivating.

With **initiative**, excellent skills for **project management** and **problem solving** oriented **creativity.**
After over a decade of architecture and urban planning, I decided to jump into **digital architecture** looking for an equally exciting but more flexible and dynamic profession.

languages

Advanced **English,** excellent oral and written communication skills.
Worked for three years in Shanghai and participated in projects in China and Riyadh in which I used english at a technical level in office and presentations.
Intermediate **French** and **Mandarin**.
